

INSIDE PANEL (3.583 in) Plant Sterols PLUS™

Your endocrine system is an important part of your body's communication system. When functioning well, its glands direct operations by producing vital hormones that send signals to keep you ready for anything and help your body stay balanced.

PLUS™ Caplets is vital to Optimal Health...they provides nutritional support for your entire endocrine (glandular) system. It contains a proprietary blend of phytosterols, plant based saponins, amino acids and glyconutrients. They are also beneficial for:

- Bone Density*
- Prostate Health*
- Breast Health*
- Colon Health*

In regard to heart health, studies show that consuming two grams of phytosterols a day could benefit your overall heart health by 25%.

Hicks, Kevin B. and Moreau, Tolbert A., "Phytosterols and Phytostanols: Functional Food Cholesterol Busters", Food Technology, January 2001

Are you Ready?

These 4 core products: **Ambrotose™**, **PhytoMatrix® Caplets**, **Ambrotose AO®** and **PLUS™ Caplets** represent nature's best in supporting needs of the human body for the most part unmet by our modern 21st century diets. Knowing that inadequate can alter bodily functions and processes at the most basic cellular level, each one of us can experience greater vitality with optimal nutrition.

Optimal Health System "Are you as healthy as you want to be?"

As a society we are facing significant health problems:

- The United States was ranked 72nd in overall health, and 37th in the health care system by The World Health Organization
- The U.S. has a workforce plagued with absenteeism and reduced productivity because of chronic health problems
- 86 Percent of health-care expenditures are for the treatment of chronic disease (CDC)
- Over 66% of adults are overweight or obese (linked to over 46 health conditions)(NIH)

Many researchers now believe that these problems are related to diet.

GMO's, Food Coloring, Chemicals, Additives, Synthetics, Transfats, Preservatives, Artificial Sweeteners...

"Is there any real food left?"
We are not getting what we need!

Glyconutrition Ambrotose®

The Discovery of a Lifetime

Glyconutrients are specialized plant sourced nutrients found in Ambrotose® powder that provide targeted nourishment for your cells. They not only nourish, but also:

- Support your immune system*
- Support digestive functions for a healthy gut*
- Improve cognitive abilities*
- Improve memory, concentration and attentiveness*
- May improve mood and decrease irritability and much more*

The Mannatech Advantage

Mannatech scientists are the innovators of this incredible technology that is revolutionizing nutrition. In 1996, they formulated the first complete glyconutrient product, **Ambrotose® Complex**. They have received more than 50 patents on the **Ambrotose®** technology alone, and have published numerous studies in peer reviewed scientific journals on its impact on health.

Today glycobiology is taught in medical schools and is recognized worldwide by science experts including the top scientific organization in the world, The Nat'l Acad. of Sciences. In their 2012 report, "Transforming Glycoscience:" *"Glycans - also known as carbohydrates, saccharides or simply sugars - play central roles in many biological processes and have properties useful in an array of applications."*

Every human has glycans covering every cell of their body. Everyone can benefit by restoring these glycans on a daily basis.

Healthier Cells = Healthier You

Vitamins and Minerals PhytoMatrix®

Nothing new you say? Absolutely mistaken! An estimated 96% of all vitamin mineral supplements sold in the U.S. today are synthetic/chemically derived. Many of them are manufactured by drug companies, including the most popular brands. Virtually all minerals are extracted from the earth...were we meant to "eat the dirt?" No, but it is cheap.

Why not REAL FOOD?

Choose **PhytoMatrix® Caplets**, what nature intended all along

All of these nutrients are food-matrixed, but even more amazing is the fact that Mannatech's innovative process uses NO minerals harvested from the soil. The minerals are first plant digested through a hydroponic growing technique producing a greater absorption rate. This whole food matrix provides the body with maximum benefits and functionality.*

And, it's not just vitamins and minerals in **PhytoMatrix® Caplets** that you need, but powerful standardized phytochemicals such as rutin, glucosinolates from broccoli, organic Acid from cranberries, and polyphenols from grapes. This blend is formulated to help the vitamins and minerals work together.

PhytoMatrix® Caplets
Complete vitamin, mineral and
phytochemical nourishment

Antioxidants Ambrotose AO®

A factor contributing to our longevity is fighting the oxidative stress that we all suffer due to the excessive toxicity in our environment, the chemicals our bodies unintentionally take in from the foods and drinks we consume, and for athletes, the excessive amount of oxygen we breathe creating an overabundance of free radicals. How do we WIN? **Ambrotose AO®** is a breakthrough product developed by Mannatech scientists. Mannatech spent many years accumulating data on:

- 1) Societies around the world with the highest longevity,
- 2) Foods naturally found and eaten regularly in these locales,
- 3) Sophisticated testing blending these nutrients to maximize the antioxidant results "in vivo" (in your human blood) to produce best results.

Independent third party studies show that just 2 **Ambrotose AO®** Capsules per day increase your antioxidant levels in blood by up to 37%. Eating 5-6 servings of fruits and vegetables daily only increases antioxidant levels by 13%.

"I am 60 years old and recently had a 3-D scan, measuring over 60 different organs etc. in my body. After the scan, my doctor said 'you may be 60 but you have the body of a 19 year old!' I have been taking most of these 4 Core products every day for over 20 years and never plan to stop."
