1. Review last week's assignments

a. Your Values

- (1) List 10 most important; list in order of importance 1-10
- (2) Did you write "stream of consciousness" on "How I want life to be?"

b. Draft TO BE List

- (1) What are the leadership characteristics you want for yourself?
- (2) What PLAN do you have to acquire these?

c. VISION statement (your "WHY")

- (1) What is your Why?
- (2) "You must know why you do what you do, which requires that you understand the purpose and value of all that you do." Define CLARITY..."having an unfettered view of your vision, which is what you want and why you want it, fed by an understanding of its purpose and value." Tony Jeary (If no articulation of VISION (and the WHY), then as a leader you will forever be "pushing" the person to their goal (to work the Plan) rather than having the goal "pull them" to where they are going.)

Symptoms of lack of clarity:

People don't believe they can do what they have to do

People use planning to avoid taking action

People quit or give up in the face of adversity or difficulty

d. Your Reality

(1) Do you have it clear, and clearly written?

(2) Did you do the 2013/2014 Analysis?

(3) Did you answer "Seven steps that can change your life?"

2. The Practical Effect of Clarity/ Clarity and Performance

"People have to believe in what they are doing. They must be committed to achievement. There must be a certain amount of mental toughness and resilience to persevere through difficulties and roadblocks. A certain amount of legitimate excitement never hurts either." Tony Jeary

True clarity contributes to all of these qualities, and with them comes power...power to produce results.
